产品介绍

Product presentation

板材+饰面皮=饰面板

Plate + Veneer=Facing sald

板材Plate

饰面板facing sald

板材系列---铝饰面板&铝蜂窝饰面板

plate series ----aluminum plate&aluminum honeycomb panels

铝板&铝蜂窝板都可以作饰面皮工艺。板材的防火等级为A1级，厚度一般为0.4~1.2mm之间。饰面颜色跟纹理可定制，饰面可进行UV处理。

Aluminum plate and aluminum honeycomb panel can be attached to wood veneer.. The fire rating of the plate is A1 pole, and the thickness is generally between 0.4~1.2mm. Veneer color and texture can be customized, and can be UV treated

板材系列----多层胶合木纹饰面板

plate series ----Multi-layer glued veneer

正面饰面
Frontal texture

侧面结构
Side structure

多层木纹饰面板，多用于家具，门板，护墙板。厚度及长度可定制。环保等级有E0,E1。芯板有桉木，杨木，桦木，杨桉，杨杂等。也可做阻燃处理，阻燃等级为B1级

Multi-layer glued veneer Mostly used for furniture, door panels, wainscoting. Thickness and length can be customized. The environmental protection level is E0, E1. The core board has eucalyptus, poplar, birch, poplar eucalyptus, poplar miscellaneous and so on. It can also be flame retardant, and the flame retardant grade is B1 pole

板材系列----防火皮

plate series ----Fireproof skin

防火皮的阻燃等级为B1级，厚度一般为0.4~1.2mm之间。饰面颜色跟纹理可定制，饰面可进行UV处理。

The flame retardant grade of fireproof skin is B1 pole, and the thickness is generally between 0.4~1.2mm. Veneer color and texture can be customized, and can be UV treated.

板材系列---密度板&阻燃密度板

plate series ---MDF & flame retardant MDF

密度板（中纤板）的密度范围通常为580~880。环保等级有E0,E1,E2,P2。用于各种家具板材。也可做阻燃处理，阻燃等级为B1级

The density range of MDF (MDF) is usually 580~880. Environmental protection grades are E0, E1, E2, P2. Used in all kinds of furniture panels. It can also be flame retardant, and the flame retardant grade is B1 pole

板材系列---刨花板

plate series --Particleboard

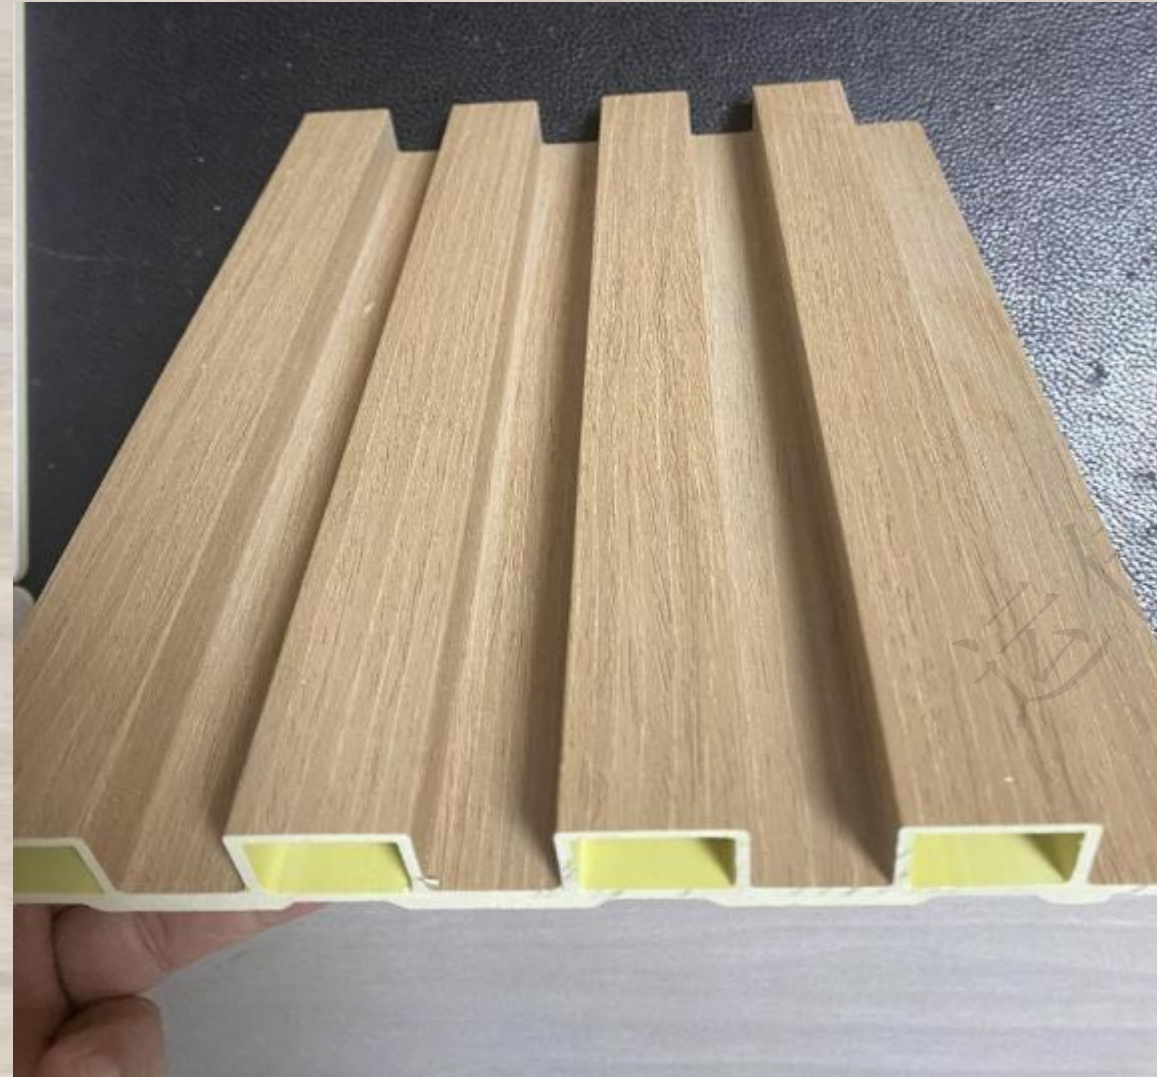

刨花板又名颗粒板，它有很好的吸音和隔音性能，但是承重能力不够。刨花板的表面很平整，耐污染、耐老化等，还可以进行各种贴面。

Particleboard, also known as granular board, has good sound absorption and sound insulation performance, but the load-bearing capacity is not enough. The surface of the particle board is very flat, and it is resistant to pollution, aging, etc., and can be applied to various veneers.

板材系列--竹纤维板

plate series --Bamboo fiberboard

竹纤维板有5厘跟9厘两种规格，有防火防潮防霉等功能，是护墙板及卫浴柜常用板材

Bamboo fiberboard has 5mm and 9mm specifications, with fireproof, moisture-proof and mildew and other functions, and is a commonly used board for wainscoting and bathroom cabinets

板材系列---玻镁板，石膏板(硅钙板)

plate series --Glass magnesium board, gypsum board

玻镁板，石膏板，硅钙板等为特殊定制款板材，多用于护墙板，吊顶等，具有防火特性。

Glass magnesium board, gypsum board, calcium silica board, etc. are special customized boards, mostly used for wainscoting, ceilings, etc., with fireproof characteristics.

板材系列---欧松板

plate series --Oriented StrandBoard (OSB)

欧松板因甲醛释放较低, 结实耐用变形度小而被很多家具厂家选用, 可直接安装使用, 也可使用饰面欧松板进行贴面加工成各种颜色纹理

Oriented StrandBoard is selected by many furniture manufacturers because of its low formaldehyde emission and small deformation degree of durability, which can be directly installed and used, or it can be processed into various colors and textures by using veneer with veneer board

板材系列----弯板

plate series --Bent plate

弯板有横弯跟竖弯两种，可以进行180度折弯，可做各种颜色纹理饰面。

There are two kinds of bending plates: horizontal bending and vertical bending, which can be bent 180degrees, and can be made into various color texture veneer

板材系列----指接板

plate series --Toothed joint board

指接板属于实木板，所以指接板有天然纹理的感觉。指接板有橡胶木、松木、杉木等，有些装友直接用指接板制作家具，表面不用再贴饰面板。

The toothed joint board belongs to the solid wood board, so the Toothed joint plate has a natural texture feel.

Toothed joints include rubberwood, pine, fir, etc., and some decorators directly use finger joints to make furniture, and the surface does not need to be pasted with panels.

饰面皮目录

Veneer Catalog

01

天然木皮系列 Natural veneer series

胡桃木、橡木、黑檀、枫木、沙比利、尼斯、染色木皮、白栓木、花梨木、KOTO、尤加利、水曲柳、杉木、松木、酸枝、沙球、石榴等多种天然木皮

02

科技木皮系列 Technical veneer series

银梨、黑檀、胡桃木、橡木、枫木、沙比利、尼斯、白栓木、花梨木、KOTO、尤加利、水曲柳、酸枝、特殊图形等多种科技木皮

03

生态板、免漆板系列 Ecological board, paint-free board series

纯色系列、木纹系列、布纹系列、大理石系列等

04

定制产品系列 Custom product series

定制图形拼花系列、封边配料
